SMOK®

Nord User Manual

Introduction
Nord, the advanced version of Novo, is a button-triggered pod system device. It has 1100mAh battery capacity, two times larger than Novo, making it a definitely powerful one among pod systems devices. It is equipped with two exclusive coils, Nord Mesh 0.6ohm coil and Nord Regular 1.4ohm coil, one is perfect for getting massive vaper, the other can offer excellent MTL experience. Its size is a little bigger than Novo, more comfortable to hold in hand, and it has a newly added button to start vaping and provide information about battery life. Besides, there is an e-liquid window in the cartridge, all of which are for your convenient operation keeping changing the vaping experience.

The kit includes:
1) 1 x Nord Device
2) 1 x G.O mesh coil for sub ohm vaping
3) 1 x 1.4Ω regular coil for MTL vaping
4) 1 x USB cable
5) 1 x User Manual

NORD CERAMIC 1.0Ω COIL

Ceramics is a material with great stability and strong high-temperature resistance, when it is applied into coils, the coils can be extremely durable, even in a higher wattage status it can still work well. And when you fire to vape, it can fully atomize the e-liquid and provide optimal taste.
